

Spare part List:

When replacing parts and making repairs, comply with all the safety precautions described in MAINTENANCE and SAFETY, take all the necessary precautions to avoid accidental start-up of the machine: the switch on the control box must be in OFF position.
The compressed air generator must be off and disconnected

For convenience to order the spare parts, it should be mentioned

- Device model
- Indicate the serial number of the machine and the year built
- Indicate the code of the piece requested
- Indicate the quantity required

The request must be submitted to the authorized reseller as indicated in the front of the manual.
